## Thinking Skills - Year 7 - Feedback from students in the exam

This is a selection of comments from Y7 students at the end of the Thinking Skills exam. I have only taken a representative sample - it gives the flavour, but is not statistically rigorous. I've entered comments verbatim, and included the negative ones.

Comments in the same colour are from the same student.

## Thinking Skills - Year 7 - Feedback from students in the exam

Yes because I am Yes, in english and It has helped me very Yes, I can now try to visualise german it has helped just a bit better things in test and find things much. I can now answer me spell the words easier to understand. The brain questions more easily boosters were fun and helped and quickly. Yes they have I think my little brother not me. I understand how to Yes I now know do things better. how to do Mind Yes they have improved because Yes as I know about the brain maps and the best in maths I can I can spell harder words (left right) ect I found it way I learn. relate to VAK! quite interesting n easy somtimes it was hard. Yes in English were we did Have your Thinking skills a spelling test we learnt improved your learning in I now know how my neurons how to brake words down other subjects at school? work in my brain a lot in to spell them correctly. science, english and maths. Can you describe how? (1/2) In D & T hook ups made me consertrate. Yes I am better Yes because in Yes because if I'm trying at spelling in to listen but can't english I have use No I'm just the VAK for doing English. concentrate I know its It has made me get same as normal. spelling and eaiser to when fiddling beter at remebring remembering them. with a pen. things Yes eq: maths, english, drama. It's made me think Doing the brain boosters has harder with my made me remember in all of Yes I have learnt that VAK are to do with neurons. But that's my lessons. my learning and every day sichuations even all really. at home will you are doing your homework.

## Thinking Skills - Year 7 - Feedback from students in the exam

Yes I feel I've got better and more interested in lessons like maths and english. I used to do nothing but now I join in.

Yes helping me to use all three learning skills they help me a lot in all my lessons by being pratical.

Yes I know more ways to understand things and take in information.

It has improved because the lesson tells me how our brains work and how you jump over cracks (synapses? - MN) and stuff

Yes because in my subjects I will spread and break down the word a lot easier.

It has because I didn't know what VAK was but now I do.

Have your Thinking skills improved your learning in

Yes I concentrate more and don't get distracted as easily as I used to.

Yes, I listen a lot better than I used to in my lessons.

other subjects at school? Can you describe how? (2/2)

No because we don't do about the brain in other subjects.

Yes such as in english spelling difficult words by seeing it in my head.

Yes because doin the VAK helps me a lot.

Yes, because before I came we never had one lesson on thinking and learning so everything is new to us.

Yes in Maths or english if I cant read a word I do sum methods I learned from Thinking skills.

It has shown me I can learn more and concentrate.

Yes, I know more about the brain and the brain booster and my brain works a lot harder now.
