

## *VAK Learning Activities*

Put each box in the right place in the empty table

Task	V - Visual	A - Auditory	K - Kinaesthetic
Learning new words			
Learning a list of things			
Practising Learning			
Revising			

## *VAK Learning Activities*

These are the items students have to sort and put into the blank table.  
Just cut out the text boxes....maybe laminate.

Thinking Skills
-----------------

	12. Picture the word in mid-air...in sparkly letters....look at its shape.	3. Break the word into chunks and say each chunk out loud	5. Trace the word in the air with your finger...forwards and backwards
	6. "See" the items and put them in a pattern	7. Make up a new word from the first letters....eg HARPECKS.	11. Count the items off on your fingers
	4. Make a Cluster Map or Spider diagram.	9. Discuss the questions and ideas with someone else	2. Practical activities..... experiments, and sorting cut-outs from a Worksheet.
	10. In your Exercise book, highlight key points....add your own pictures and decorations	1. Read your learning out loud....get someone else to ask you questions	8. Walk or move about while you are learning...trace out shapes in the air.
